

Getting Started with the SWT RichTextEditor

Download and start using the SWT RichTextEditor by clicking on the link below.

To help you get started, there is also some example code at [HTMLTextEditorExample.java](#).

You can download the JavaDoc [here](#).

You can use your own icons or download any of the following sets:

- bitmaps 16 x 16 pixels
- PNGs 16 x 16 pixels
- bitmaps 16 x 16 pixels
- PNGs 24 x 24 pixels
